

# PGA's, Licenses and Certificates.

Filers experience trades involving agencies to meet product regulations entering the U.S. or in certain export transmissions.

**Perform a query of the tariff to determine the involved agencies and options either to regulate or disclaim information. The agencies can be seen on the page below of the query.**

## Licenses/Certificates

Depending on the agency and products, some licenses and certificates are mandatory. Review with the regulated agency if questions retrieving licenses.
